

SARANYA A

Aspiring Python Developer • Data Analyst • Business Analyst

saranyashruti2002@gmail.com | 9788312403 | [Github](#) | [Linkedin](#)

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience building Python applications, AI-driven voice assistants, and full-stack web solutions. MySQL, and data analysis (Pandas, Matplotlib). Currently contributing to quality integration workflows in a professional environment. Seeking entry-level roles in Python development, full-stack engineering, or software QA.

TECHNICAL SKILLS

Languages:	Python, JavaScript, HTML, CSS, SQL
Frameworks:	Django, jQuery
AI / Tools:	SpeechRecognition, pyttsx3, pywhatkit, Pandas, Matplotlib
Databases:	MySQL, CSV/File-based storage
Dev Tools:	Git, GitHub, VS Code, MySQL Workbench, MS Office

PROJECTS

Nova — AI Voice Assistant | [GitHub ↗](#) — *Python · SpeechRecognition · pyttsx3 · pywhatkit · Automation*

- ▶ Built a Python voice assistant with wake-word detection that executes 10+ voice commands including opening applications, playing YouTube, setting reminders, and fetching the time.
- ▶ Integrated SpeechRecognition for real-time speech-to-text and pyttsx3 for natural text-to-speech responses, enabling seamless bidirectional voice interaction.
- ▶ Automated OS-level tasks (launching Chrome, Notepad, subprocess management) and web actions via pywhatkit, reducing task execution to a single voice command.
- ▶ Implemented command logging with timestamps for all interactions, supporting debugging and usage analytics.

Finance Tracker | [GitHub ↗](#) — *Python · Pandas · Matplotlib · CSV · Datetime*

- ▶ Developed a CLI-based personal finance management application to track income and expense transactions, calculate net savings, and generate date-filtered financial summaries.
- ▶ Used Pandas for structured CSV data management and date-range filtering, enabling accurate transaction queries across custom time periods.
- ▶ Built income vs. expense trend visualizations using Matplotlib, producing time-series graphs for daily financial tracking and pattern analysis.
- ▶ Designed a modular codebase (main.py + data-entry.py) with menu-driven UX, input validation, and reusable helper functions for data entry and reporting.

Silent Triumph — Self-Improvement Web Platform | [GitHub ↗](#) — *Python · Django · HTML · CSS · JavaScript · MySQL*

- ▶ Developed a full-stack self-improvement platform with user authentication, journal entries, and habit/goal tracking using Django MVC and MySQL.
- ▶ Designed user flows for journal and improvement tracking; implemented CRUD operations with Django ORM and responsive front-end using HTML, CSS, JS.

EXPERIENCE

Quality Data & Documentation Analyst — Evervan Kothari Footwear Pvt. Ltd., Karur *Dec 2025 – Present*

- ▶ Managed and maintained structured quality documentation using MS Excel and MS Word, including defect logs, inspection reports, and production records to ensure accurate traceability and version-controlled data management.
- ▶ Analyzed quality measurement data, prepared standardized digital reports, and collaborated with cross-functional teams to support defect analysis, process improvement, and data-driven production decision-making.

EDUCATION

B.Sc. Computer Science — Muthayammal Memorial College of Arts & Science, Rasipuram | Periyar University | 84% | 2023

HSC — M N S Government Girls Hr Sec, Salem | State Board | 66% | 2020 **SSLC** — Same School | 81% | 2018

CERTIFICATIONS & ADDITIONAL

- ▶ **Certification:** Python Full Stack Development — IPCS Global
- ▶ **Typing:** Distinction grade (Lower Grade – Distinction) — high accuracy data entry
- ▶ **Languages:** Tamil (Native), English (Professional Working Proficiency)
